

Tork Advanced полотенца сложения ZZ

преимущества

- 2-слойные полотенца, переработанное сырье
- Белого цвета с тиснением
- экономичность использования
- 200 штук в пачке

2

свойства продукта

Артикул	Система	Слойность	Цвет тиснения	Тиснение	Цвет
290182	H3 - Полотенца сложения ZZ и C	2	нет	да	Белый

отгрузочная единица

потребительская единица

Штрих-код	7322540418811
примеры	200
материал	Banderole
высота	130 mm
ширина	115 mm
длина	230 mm
объем	3.4 dm ³
масса нетто	438 g
масса брутто	443 g

транспортная единица

Штрих-код	7322540418835
примеры	3000
потребительская единица	15
материал	Carton
высота	240 mm
ширина	400 mm
длина	600 mm
объем	57.6 dm ³
масса нетто	6.57 kg
масса брутто	7.29 kg

паллета

Штрих-код	7322540418828
примеры	108000
потребительская единица	540
высота	2310 mm
ширина	800 mm
длина	1200 mm
объем	2.1 m ³
масса нетто	236.53 kg
масса брутто	262.55 kg

ЭКОЛОГИЯ

Content

Recycled fibres, Chemicals

Material

Recycled fibres Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important. The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view. The used functional chemicals are: Wet strength agent Dry strength agent Dye Fixing agents Fluorescent whitening agent Glue Softeners The process chemicals are: Antipitch Protection agent Yankee coating Defoamer Dispersing agents and surfactants pH and charge control Retention aids Broke treatment chemicals Drainage aid Packaging Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes Environmental label = Ecolabel This product does not have any ecolabel.

Date of issue 2010-03-05

Revision date

Production

This product is produced in Kammenogorsk Mill, RU, certified according to ISO9001 and ISO14001.

Tork Advanced полотенца сложения ZZ

Destruction

This product is mainly used for personal hygiene and can be collected together with household
